

# I.H.M Research Institute

Dr. Masaru Emoto's flash photography, featured in the recent movie, ***What the Bleep Do We Know***, illustrates enhancements in the water's ability to form **beautiful crystalline geometry after only 9 minutes in the Vitalizer Plus™**.

Since the water in this study was treated in the U.S. before shipment to Japan for evaluation in Dr. Emoto's laboratory, these photographs show the long-term stability of the hexagonal state of water produced in the Vitalizer Plus™.

Photos of distilled vs. vitalized water (below), clearly indicate a higher energy state of vitalized water and a much greater degree of organization (structure) of the water molecules.

Photographs Taken by Dr. Emoto's Laboratory in Japan

Distilled Water

Distilled Water treated with Vitalizer Plus™ for 9 minutes

While we made every effort to accurately describe this product, these statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease. Individual result may vary.

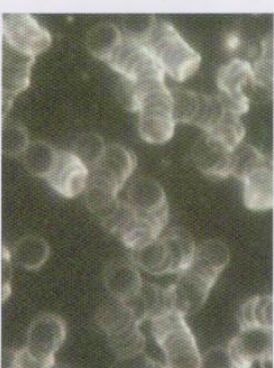

# Live Blood Analysis

Live blood analysis with dark field microscopy offers the **unique ability to view the blood in real time**. Trained practitioners are able to note the presence of conditions in the blood that contribute to sickness and disease.

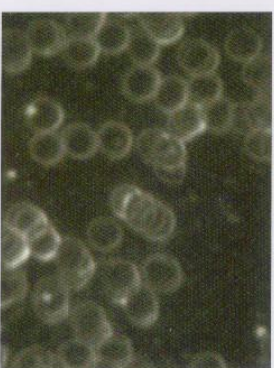

One of the most common conditions found during live blood analysis is **stickiness (Rouleau)** of the red blood cells. This creates sluggishness in both the circulatory and lymph systems and inhibits both nutrient and oxygen absorption, as well as the elimination of cellular wastes. According to biochemist Stefan Schoeman:

*"In my experience, it takes a serious effort over a period of time to re-hydrate the body and the blood. With that in mind, I have been extremely surprised to discover that within a very few minutes after drinking hexagonal water, the Rouleau effect begins to resolve."*

**Live Blood Analysis Illustrates The Rapid Reduction In Rouleau Following The Consumption Of Hexagonal Water**

Actual live blood sample before consuming Vitalized water. Note the clumping of red blood cells.

Photos courtesy of Stefan Schoeman Bio House Clinic, South Africa

This photo was taken of the same individual, 10 minutes after the consumption of 16 oz. of water vitalized in the Vitalizer Plus™. Note the separation of red blood cells - for improved oxygen and nutrient uptake.

As a practicing Naturopathic Physician and as president of the Curing Old Age Disease Society (COADS), I see patients in all states of degenerative disease. The Vitalizer Plus™ represents a near miracle when it comes to supporting the natural detoxification processes of the body.

In my experience, the unique structured water produced by this machine provides superior hydration and an enhanced ability to remove metabolic wastes from the cellular components of the body. Both of these factors are critical for healing and for maintaining natural vitality. I highly recommend it as an addition to any health care program.

*All water is not created equal.* Qualities like structure, mineral content, and surface tension determine how effectively water is absorbed across cellular membranes to hydrate the body. Since hydration is such a major factor for optimal health, the quality of the water we drink is of paramount importance.

Testing with devices designed to accurately measure the state of health in an individual clearly show that water treated with the Vitalizer Plus™ improves a number of health parameters—within minutes. Tests conducted in our office, before and after drinking 1, 8 ounce-glass of water treated in the Vitalizer Plus, showed significant improvement. Point scores using Meridian Stress Analysis (MSA) showed a 24.7% improvement within minutes. Heart Rate Variability (HRV) scores likewise improved, showing 29.4% improvement in the same 5-10 minute period of time. As indicated by the above, the Vitalizer Plus™ is clearly a positive step towards achieving better health. It is a significant addition to a complete program of health care and maintenance.

Thank you very much

Sincerely yours,
